

What do walkable neighborhoods look like?

步行社區是什麼樣呢？

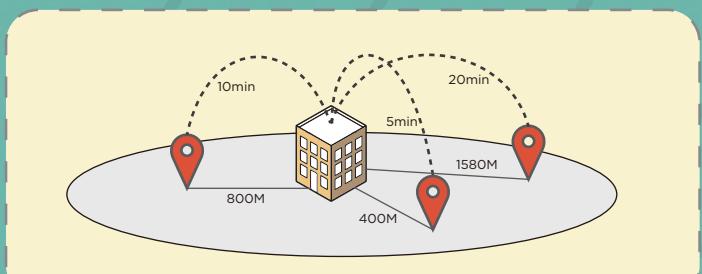

步行社區可以達成什麼願景？

What can walkable neighborhoods achieve?

## TRADITIONAL RESEARCH OF WALKING 傳統研究步行的方法

WALKING DISTANCE 步行距離

"To create better cities, we need to develop some methods to measure how walkable those neighborhoods and cities are!"

我們需要一些研究方法來增加和改善步行社區來創造更好的城市！

CITY PATTERN 城市佈局

PEDESTRIAN DENSITY 行人密度

PHYSICAL CONDITIONS 街道環境

## VISION ZERO

為了促進安全而簽署的消除交通事故願景

Experts are lacking direct conversation with pedestrians. The current methods more focus on on-street observation and data analysis, which cannot respond to people's real demand.

專家們  
EXPERTS

現有的研究方法缺乏與行人的直接交流，只是通過觀察與數據研究而得出結論。這樣的研究無法滿足行人和社區的真正需求。

行人  
PEDESTRIAN

People can reach many businesses and services in walking distance

人們可以步行到達許多店舖和服務

# CHINATOWN

The 3rd most walkable neighborhood in NYC 中國城被評為紐約市步行社區的第三名

+328%

property values

Increase in Walkability will increase house price

研究表明步行指數的上升會導致房屋價格的提高

貴族化

GENTRIFICATION

Large Senior Population  
老齡化人口

Car Collisions  
交通事故頻發

Low Income  
低收入社區

High Asthma Rate  
高哮喘率

Uneven Pavement  
不平整的街道

## City 市政府

市政廳

Similar design guide for every neighborhood  
所有的社區都用同樣的步行設計導則

Lacking Attention for Chinatown  
政府不關心中國城的情況

Rezoning changes the use and the size of buildings, and divide our neighborhood  
重新區劃改變並分隔社區

## Property Owners 產權人

產權人

Leave vacant property in Chinatown  
在中國城留下空置地產

Using "walkable neighborhood" in ads to sell their property  
用“步行社區”作為他們出售房屋的廣告

Don't respect the culture and history of chinatown  
不尊重中國城自身的文化和歷史

What is walkable?  
什麼適合步行

Walkable neighborhoods for whom?  
為了誰創造步行社區

Residents of Chinatown  
中國城的居民
